## MINISTRY GOALS

I am motivated by the call to make disciples. I desire to steward well the opportunities I am given so others may follow Jesus and become His disciples. Leadership, for me, is serving others so they may fulfill their calling as Christ's ambassadors. I believe I am most skilled at developing leaders, resources and culture so that others are able to extend the gospel to those who are most difficult to reach. Over the last two years I have pursued avenues to grow my leadership capacity through seminary, mentoring, and taking on new challenges. This has equipped me to better face the uncertainty presented by the pandemic and to lead with hope, compassion and adaptability. My goal for those I lead is that they will find camaraderie, development and vision for their vital work in the Great Commission.

## WORK HISTORY
